Capture Carpet & Rug Cleaner w/soil Release Premist

Dilution Rate (oz./gal.): RTU

Cleaning Instructions: 1) Pre-Mist, Lightly spray the soiled area with Capture Soil Release Pre-Mist. This helps loosen tough or set-in stains. Tip: For heavily soiled traffic lanes, very gently brush the Pre-Mist into the carpet before sprinkling the powder. 2) Sprinkle Powder, Capture Deep Cleaning Powder liberally to completely cover the stain. For kits that include a sifter, one sifter full of powder covers a 6’ x 6’ area. 3) Brush,Activate the powder by lightly brushing it in. There’s no need to scrub or brush hard! The powder cleans by absorbing the stains it contacts and keeping them contained as it dries. Tip: Insert any threaded handle into the carpet brush. This makes brushing the powder over large areas much easier. 4) Vacuum, Wait at least 30 minutes, then vacuum up the Capture powder. Tip: When vacuuming a large area of Capture cleaned carpet, start with a fresh bag or empty chamber in your vacuum cleaner for maximum suction

Cleaning Solution Program

Type: Spot Remover

Certification From: 10/14/2026

Certification Expiration: 12/31/2027

THE CARPET AND RUG INSTITUTE

100 S HAMILTON STREET
DALTON, GA 30720-4612
UNITED STATES

SOA-certified products are required by the US Green Building Council’s LEED v4.1 under the program’s Green Cleaning Equipment provision.
