Carpet Spotter

Dilution Rate (oz./gal.): RTU

Cleaning Instructions: DIRECTIONS PLEASE NOTE: Before use always test a hidden section of the carpet for colorfastness. For dry stains or spots, vacuum area to be treated first to remove any loose soil. For wet stains or spots, blot the area with a dry clean colorfast cloth or sponge to remove any excess material. For Spots and Stains on Carpets and Rugs: 1. Spray Carpet Spotter directly on the stain or spot. Use care to wet the spot, without over-saturating the carpet. 2. Gently massage XL Carpet Spotter into the soiled area using a clean dry cloth, lightly dampened sponge or a nonabrasive brush working toward the center of the stain. Blot any residual moisture from the area until the stain or spot no longer transfers from the carpet to the cloth or sponge. Re-apply and repeat this step until stain or spot is removed. 3. Vacuum the area thoroughly after drying to remove crystals and encapsulated soil or use extraction equipment to evacuate the area.

Cleaning Solution Program

Certification From: 04/17/2023

Type: Spot Remover

Certification Expiration: 06/30/2024

THE CARPET AND RUG INSTITUTE

100 S HAMILTON STREET
DALTON, GA 30720-4612
