Contempo H2O2 Spotting Solution

Dilution Rate (oz./gal.): Ready to Use

Cleaning Instructions: Remove excess matter and blot up excess moisture with a clean white absorbent cloth. Spray product directly on the spot and wait a few seconds to allow the product time to penetrate. Gentle agitation may be needed. Use a carpet tapping knife or soft carpet brush to penetrate the carpet pile, working the cleaning solution into the affected area. Spray a small amount of water on the area to float the spot up and out of the carpet pile. Blot with a clean, white absorbent towel. Frequently turn the towel and apply a clean area of the cloth to the carpet until the spot is lifted.

Cleaning Solution Program

Certification From: 09/30/2025

Type: Spot Remover

Certification Expiration: 12/31/2026

100 S HAMILTON STREET
DALTON, GA 30720-4612
UNITED STATES
